ABOUT US

Gravity is an interactive technology company that aims to enable your business with its digital DNA. As we believe, all media will soon be cent percent digital and interactive. We bring unparalleled experience in Branding, Digital Strategy, User Experience, User Interface, Web Design & Development, Cross Platform Applications for iPhone, iPad, Android & Windows including the CRM, CMS, RWD, ERP and interfaces for VFX & more.

We, here at Gravity, believe in result oriented, measurable solutions so that brands can connect, engage with and build sustained relationships with their consumers online.

WHAT WE DO ?

We are your one-stop solution provider who is not only into Web & App Development but also into many innovative technologies. We eat, sleep & breathe technology. It's who we are. You think of it. And, we will deliver it!

MOBILE DEVELOPMENT

Need a custom, native iOS, Android or Windows app? Prefer a cross-platform responsive web app? Or a secure backend? If you want it, we can build it. Where others struggle, we thrive.

BRAND CONSULTING

New. Breakthrough. Experiential. Transformational & Standout. We believe this is what it takes to create a brand which is better known, better understood, and truly unique.

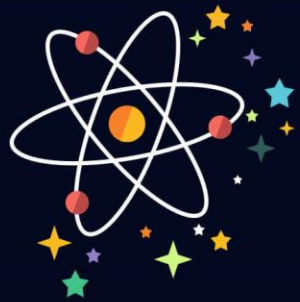

WEB DEVELOPMENT

We design & develop clean, uncluttered and beautiful websites at affordable price using the principals of design, that fit the screen people use.

INNOVATIVE TECHNOLOGY

We are a rarity in AR circles in India. We know the technology, the market, the strategic impact, and most importantly we know how to help you avoid the pitfalls and develop successful campaigns.

WEB DEVELOPMENT

We handcraft websites in 4 days flat. Whether you are a small startup or a big enterprise we create highly polished websites because we believe business is too important to rely on a bad one. We design & develop websites that delight millions of people around the world.

CREATIVE DESIGN

Our designers give your brand not only a pretty face, but the best of user experience, user interface, visual identity & information architecture be it a responsive, parallax or even a mobile website.

DEVELOPMENT

We believe code is our canvas & coding a beautiful interface should go beyond skin deep. Every code we write improves the experience for your customers and enhances the usability of the website.

CRM & ERP

We provide innovative, flexible & cost-effective solutions to any business problem, enabling our clients to save time, increase productivity, minimize costs and maximize ROI.

CMS

Whether it is a Wordpress, Magento, Joomla, Drupal, or even a custom CMS, we do it all. We're a full-service company that will do whatever it takes to help you grow your business and your presence on the web.

MOBILE DEVELOPMENT

We take mobile personally, because we believe in solving problems, engaging users & creating rich experiences. We stretch our creativity muscle to dive deep into space to create the app which runs flawlessly, works perfectly and has super cool animations. Creativity, quality & customer satisfaction is our promise with every app we deliver.

UX/UI

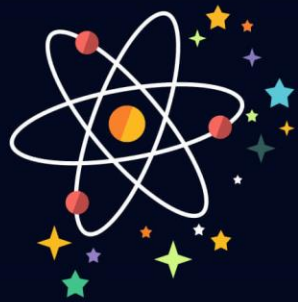

we believe reaching a goal with the least number of clicks defines the best user experience ever. We build intuitive, beautiful and enriching user experiences for every screen and every device. No exceptions.

DEVELOPMENT

Our hand tailored code crafting technique allows us to build stunning, flawless & smooth applications. iOS, Android or Windows, HTML5 or even native, Google Glass, Oculus Rift or an iWatch App, we do it all.

ENTERPRISE MOBILITY

Our Enterprise App Development gives your organisation a better connectivity, synchronization & full management control. Your app may be deployed on a variety of platforms across corporate networks, intra-nets, or the Internet. We make them data-centric, user-friendly and secure.

BRAND CONSULTING

We help discover authentic story and find true voice for your brand, all to make your brands clear, compelling and consistent. We do it by research, strategy and creativity across all media, including digital and video. We love making things real. Whether it is on social media or print, we design, write and produce at every step of the process - from idea to launch.

BRAND STRATEGY

We define the space where your brand can be unique, authentic and relevant, so that your messages resonate with the right people. We understand the strategic implications as the lens that guides the brand's expression and experience across all mediums.

BRAND IDENTITY

Design & a users experience isn't just for the digital crowd. We create a living, involving and evolving expression based visible symbol representing the very values of the brand. We believe in bringing the identity in sync with your strategy.

CORPORATE BRANDING

Having a compelling story is only half the battle. Qualitative and quantitative, behavioural and perceptual, observational and participatory - we draw on all forms of research as we dig deep to analyze the data and uncover insights for your brand.

BRAND MANAGEMENT

We simplify to amplify how your brand should look, feel and sound to the world. We partner with you to align brand across all the key stakeholders by developing world-class brand manuals, templates & advertising. After all, it is a marathon not a sprint.

INNOVATIVE TECHNOLOGY

We are a rarity in AR circles in India. We comprise of a unique combination of entrepreneurs, marketing strategists & 3D vision experts, We know the technology, the market, the strategic impact, and most importantly we know how to help you avoid the pitfalls and develop successful campaigns.

AUGMENTED REALITY

Augmented Reality is a real time view of a real-world environment whose elements are augmented (or supplemented) by computer-generated sensory input such as sound, video, graphics or GPS data.

GESTURE RECOGNITION

Gesture recognition is an emerging technology that has the potential to revolutionize the way humans interact with machines; not only in gaming and automotive applications but also in day-to-day activities on the home front.

HOLOGRAPHIC PROJECTION

Holographic projection is the new wave of technology that will change how we view things in the new era. It will have tremendous effects on all fields of life, including business, education, science, art and healthcare.

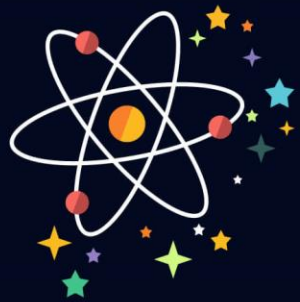

WEARABLE TECHNOLOGY

Smart glasses are wearable computers that add information onto reality. Smart Glasses provide an opportunity to look into a unique world with a combination of real and virtual through Augmented Reality technology.

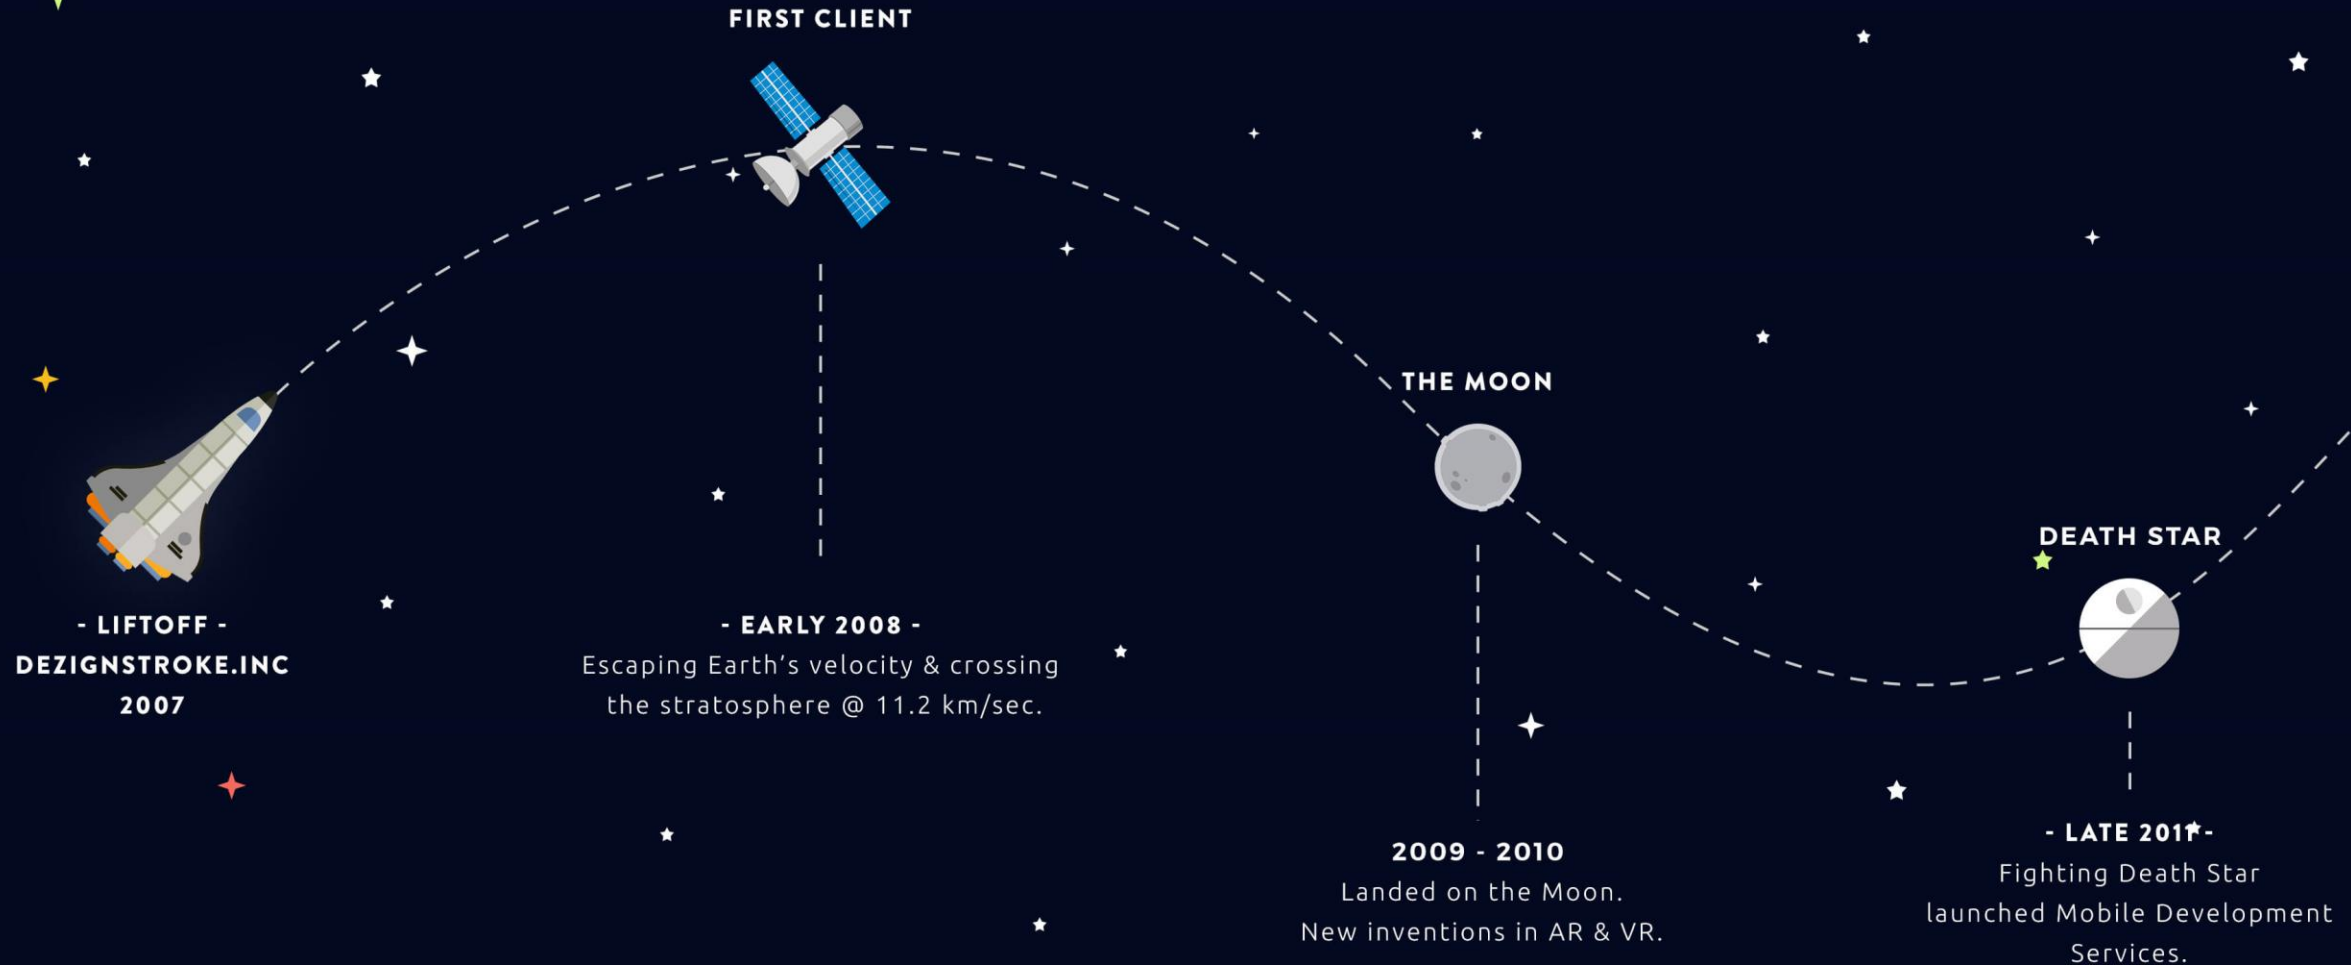

MULTI TOUCH

The multi-touch interface is a fast emerging accessibility option available today, and it is fast replacing keypads. Throughout the world companies are reaching out for innovative ideas to gain attention for products and brands.
